summer is here

ETC Flash ... July 2007

During the summer

ETC welcomes students from around the world. New students are arriving and others are leaving. It's a natural circle, it's ETC's circle, it's the best way to meet people, make new friends and learn about other cultures.

Summer is here (although you wouldn't think it)! Even if England is considered the country of rain, we hope that in July and August the weather will be better, let's cross our fingers that it will be sunny this summer.

2. Worth Matravers

Worth Matravers is a small village on the Dorset Coast. You can get there by bus. You can see very peaceful views and many sheep and cows up close.

There is a very nice pub in the village. It is called "The Square and Compass". It is on a hill. There is a nice view from the top of the hill. If the day is sunny, you can see a very beautiful landscape. You can have a lot of kinds of beer and home-made cider on the stone tables outside. Also you can stay inside if you want. There is also a museum inside the pub! You can have something very delicious to eat if you are hungry after a long walk. **To get home you can even take a steam train!**

Worth Matravers is very beautiful place, so I recommend to visit there.
